📍 Sumpong, Malaybalay City Bukidnon

ABOUT ME

A graduate of a 4-year course, Bachelor of Science in Information Technology, from Bukidnon State University. Aspiring to build a career in website development and in the overall IT field. 23 years old male, and a local resident of Malaybalay City, Bukidnon.

Adaptable, eager to learn new technologies, and committed to applying my technical skills and problem-solving abilities in an real work environment.

EDUCATION

Bukidnon State University | 2022-2026

Degree: *Bachelor of Science in Information Technology*

Currently on track for graduation this month for the four-year degree program focused on information technology, covering areas such as computer systems, networking, database management, software development, cybersecurity, and technical support. Holds foundational level skillset, as an IT Professional.

On-The-Job-Training: *490 Hours Internship at the Provincial Information Communications Technology Division (PICTD)*

Completed a 490-hour internship where I gained practical experience in technical support, computer troubleshooting, network maintenance, software installation, hardware diagnostics, and IT operations. Assisted staff and seniors in resolving technical issues and supported daily ICT-related activities, documentation proposals, web development, and Bukidnon Government events assistance.

Philippine Civil Service Examination: *March 2025 Professional Level Passer*

Successfully passed the Philippine Civil Service Professional Examination, demonstrating competence in analytical reasoning, verbal and numerical abilities, and professional aptitude required for government and professional service positions.

WORK EXPERIENCE

Jogaliga, Brazil | 2026 - 3 Weeks Duration

Code Documenter (Remote, Freelance)

Served as a Code Archaeologist responsible for analyzing and documenting the company's mobile application codebase. Traced system workflows, application architecture, and component interactions to create clear technical documentation, helping developers understand code functionality, maintainability, and system design.

The Beaute Group, UK | 2026 - 8 Weeks Duration

Full Stack Website Developer (Remote, Freelance)

Developed Flou, a multi-tenant SaaS platform designed for clinics to help acquire, retain, and re-engage clients. Implemented Stripe payment integration, WhatsApp automation, third-party booking system integrations, Google API services, and various frontend and backend features to support business operations and customer engagement.
